## DESIGN TRUST: IMPROVING PUBLIC SPACE FOR ALL NEW YORKERS

The Design Trust for Public Space creates public/private partnerships to improve civic space in New York City. We organize teams of experts — urban planners, graphic designers, landscape architects, ecologists, economists, or whoever may be required — and provide fellowships to support their work with public agencies and community groups. These powerful and unexpected collaborations generate solutions to complicated public space issues and overcome formidable political and logistical hurdles. We enrich the urban experience for all New Yorkers by turning good design intentions into reality.

## RECENT ACCOMPLISHMENTS:

DESIGNING THE TAXI  
rethinking New York's moveable public space in time for its 2007 centennial

SUSTAINABLE NEW YORK CITY  
identifying the top 10 environmental initiatives that New York City can implement right now

LONG ISLAND CITY: CONNECTING THE ARTS  
a new identity for a vibrant arts and industrial community

HIGH PERFORMANCE INFRASTRUCTURE GUIDELINES  
a groundbreaking national standard for sustainable streets and sidewalks
